

Institute for Systems and Technologies of Information, Control and Communication

Setúbal, 30<sup>th</sup> of October 2019

To whom it may concern,

On behalf of INSTICC - Institute for Systems and Technologies of Information, Control and Communication, I would like to confirm that the paper entitled "Machine Learning-Assisted Cognition of Driving Context and Avoidance of Road Obstacles", authored by Manolo Dulva Hina, Andrea Ortalda, Assia Soukane and Amar Ramdane-Cherif is part of a short list of revised and extended versions of presented papers at IC3K 2018, to be published with Springer in a CCIS Series book entitled "Knowledge Discovery, Knowledge Engineering and Knowledge Management, IC3K 2018, Revised Selected Papers".

This letter is our official confirmation of invitation to publish in the Springer book, and shall be regarded as such.

Best Regards,  
Ana Beatriz Filipe  
IC3K Secretariat
